

AMANDA CIOBANU

FULL-STACK WEB DEVELOPER

ABOUT

I want to become a great IT professional. To fulfill this objective, I attended Le Wagon Bootcamp (full-time) in Lisbon, which I have graduated in July 2020 (batch #419). Since then, I have continued improving my software development skills, increased my tech stack knowledge, and collaborate with peers to expand my experience.

I am looking forward to my next big challenge where I can deepening the skills I acquired so far, work on meaningful products, and became an active member of the tech community.

WEB PROJECTS - LE WAGON

BALANCER - JULY - 2020

Web application used to connect entrepreneurs with investors. (Built with Ruby on Rails, ES6, Bootstrap, PostgreSQL, and HTML/CSS. The project also featured Stripe Payments integration and images hosted in Cloudinary).
<http://www.balancer.online>

BIROU - JUNE 2020

Market place to rent co-working spaces (Built with Ruby on Rails, ES6, Bootstrap, PostgreSQL, and HTML/CSS. The project also featured booking systems and images are hosted in Cloudinary).
